

## Social & Sensory Programs

### Course Descriptions:

Evidence based programs to help guide and motivate children in social skills and sensory regulation. Participants will learn with hands-on activities, role playing, guided practice, games and review from occupational therapists. Groups are small (3-6 students) and divided according to age and social goals to encourage optimum learning opportunities. Topics may include effective strategies to:

- Increase body awareness
- Develop relationships
- Become more flexible
- Demonstrate self control
- Maintain attention
- Understand social expectations
- Learn organizational skills
- Develop calming skills

**Registration:** Registration for 6 classes minimum required. Class size is limited, and taken on a first-come, first-serve basis with \$55 deposit to reserve spot. Class times and days vary depending on the age of the student. Please contact [lori@tampakidstherapy.com](mailto:lori@tampakidstherapy.com) to begin registration or for more information.

**Location:** 3401 S Macdill Ave, Tampa, FL, 33629

*We look forward to the opportunity to help your child grow!*
